CSE464 — Project Part 1

Prereqs

Java 17 • Maven 3.9+ • Graphviz on PATH (`dot -V`).

Build

```
mvn clean package
```

Run

```
mvn -q exec:java "-Dexec.mainClass=edu.asu.tmedina7.graph.Main"
```

Outputs in `target/` :

- `graph.txt` (text summary)
- `graph.dot` & `graph.png` (Feature 4)

Features Implemented

1. Parse DOT → stable summary → write file

2. Add nodes (skip null/empty; de-dupe)
3. Add edges (de-dupe; auto-create vertices)
4. Export DOT & render PNG via Graphviz

Files

`GraphService.java` , `Main.java` , `GraphServiceTest.java` ,
`src/main/resources/samples/input.dot` , `src/test/resources/samples/expected.txt` .

Test

```
mvn clean package
```

Expect **BUILD SUCCESS**.
